

BC-57, Y-2 8.25R20 130/128K

Description

Radial tyre. The multi-purpose tread pattern provides good traction performance in all road conditions and helps intense heat removal from the critical zone of heat buildup, increasing the tyre life. The tyre shows an improved handling and braking performance and uniform tread wear. Zigzag grooves create additional biting edges in different directions to improve maneuvering traction. Shoulder area has separated massive lugs, which provide stability in all driving modes.
