

# Φ-179 30.5R-32 162

## Description

Low profile tyre. The cross-country tread pattern provides stability and improved manoeuvrability. Tyre design increases pulling power and reduces rolling resistance losses. Lightweight tyre produces a reduced specific pressure on soil and great fuel economy in case of combine harvesters operation.

**Recommended use:** traction wheels of grain combine harvesters, grain discharging trailers and other agricultural machines.

## Specification
